

PRIYA SHAH
Software Developer

Summary

Application developer focused on Python web services and relational database systems.

Experience

Software Developer, Harbor Works, Feb 2022 - Present

Designed and maintained Python REST APIs for internal operations teams.

Created PostgreSQL schemas, optimized queries, and wrote integration tests for critical endpoints.

Collaborated with frontend engineers and documented service contracts.

Junior Developer, Maple Studio, Jul 2020 - Jan 2022

Implemented backend features in Python and supported on-premises Linux deployments.

Projects

Inventory Service, Mar 2020 - Jun 2020

Built a small Flask and PostgreSQL inventory application.

Skills

Python, Flask, REST, PostgreSQL, Linux, Git
